

Renaissance Ridge HOA Meeting Notes-Sept 12th 2015

Projects:

New Playground-The HOA has been working with two companies to negotiate bids on the new playground along 242nd. The old playground was assessed by The City of Sammamish a while back and recommended the HOA repair or replace the existing playground. The HOA has budgeted to have a new playground installed and is currently looking into a demolition company to remove the existing playground to prepare for the new one to be installed sometime late 2015 or early 2016.

Fencing-The HOA has completed the letter to mail out the homeowners where fencing needs to be repaired or replaced along 242nd and 240th. The HOA has negotiated discounted rates with several contractors to help the homeowners get the best price.

Repairs to the decorative fencing along 242nd and 240th have begun. The fencing along SE 8th (East) has been removed and replaced at the Cities expense.

Website-The HOA will begin website updates shortly to streamline things.

Landscaping-The HOA has been working with a new landscape company-Eastside Landcare. They have completed their 60 day trial with many compliments from homeowners.
